

Interactive comment on “Reconstruction of the 1979–2006 Greenland ice sheet surface mass balance using the regional climate model MAR” by X. Fettweis

M. Van den Broeke (Editor)

broeke@phys.uu.nl

Received and published: 30 August 2007

According to both reviewers who filed their comments this is basically a very good and timely paper. I kindly ask the author to revise the manuscript along the lines set out by the reviewers, and extend the discussion where necessary, as already detailed in the author’s response.
