Dear Prof. Thanks for your review. After careful checking and further discussion with other permafrost experts, I finished the manuscript revision (see attached pdf version). TC is indeed a first class SCI-indexed international journal for Cryosphere studies. As a scholar pursuing in this field, it is my honor to publish my research deliverable in TC. Thereby, please have a further review for this revision version. I hope that it reaches the standard for publication this time. Thanks a lot.

Best Wishes, Chen Fulong
