ments, we think that the manuscript has been improved and we hope that it now satisfies the standards for a publication in The Cryosphere.

Enclosed, you will find a zip archive with two pdf files containing: - a detailed description of the authors' replies to each comment of the reviewers (the text of the paper appears in blue and the changes are underlined). - an updated draft of the manuscript showing the changes that have been made (changes are highlighted in yellow).

Best regards,

Dr. Antoine Rabatel, for all the authors
