

Interactive comment on “Decay of a long-term monitored glacier: the Careser glacier (Ortles-Cevedale, European Alps)” by L. Carturan et al.

M. Sharp (Editor)

martin.sharp@ualberta.ca

Received and published: 17 October 2013

Dear Dr Carturan Thank you for your detailed responses to both the commissioned reviews and the comments of Mauri Peltó. On the basis of those responses I would like to encourage you to proceed with submission of a fully revised manuscript, which will move us to the next stage in the review process. Best wishes Martin Sharp (Associate Editor)
