

Interactive comment on “Arctic Ocean sea ice snow depth evaluation and bias sensitivity in CCSM” by B. A. Blazey et al.

Anonymous Referee #1

Received and published: 16 May 2013

The topic of modeled snow on sea ice hasn't received much attention - it should probably receive more. The paper presents comparison to observations and a sensitivity test of the model - a generally straightforward and useful study. Comments regarding a few items are in the attached PDF document.
