Dear Editor,

In this rebuttal, we react on the different comments that we received in the Online Discussion of our manuscript. Below, comments from different people are grouped according to topic. We distinguish between more methodological comments, that are discussed first, and more technical remarks, that are discussed second, followed by minor remarks. Hereby we would like to thank the different contributors to the discussion, which definitely increased our insight in the topic.

With kind regards,

C1452

Roderik Lindenbergh, Vu Hien Phan and Massimo Menenti
