Please can the authors consider adding the below two references to their literature review, which use ERA-40 reanalysis data for modelling Svalbard glacier mass balance using a coupled surface-subsurface energy balance model.

Rye et al. (2010), Modeling the surface mass balance of a high Arctic glacier using the ERA-40 reanalysis, JGR - Earth Surface, DOI: 10.1029/2009JF001364

Rye et al. (2012), On the need for automated multiobjective optimization and uncertainty estimation of glacier mass balance models, JGR - Earth Surface, DOI: 10.1029/2011JF002184
