Hello, I just would like to suggest a reference which I think is relevant to your paper: Sellier, M., Gessese, A. and Heining, C. (2012) Analytical and numerical bedrock reconstruction in glacier flows from free surface elevation data. Beijing, China: 23rd International Congress of Theoretical and Applied Mechanics (ICTAM2012), 19-24 Aug 2012. See http://ir.canterbury.ac.nz/bitstream/10092/9065/1/12640695_ictam2012_Sellier.pdf
