

We have inserted a doi-link to the data sets (which can be downloaded from the NorStore data base, <https://archive.norstore.no/>) in the manuscript, under the passage “The Supplement related to this article is available at ...” before the Acknowledgements.

The added sentence is “Gridded data sets (mean and standard deviation of MAGT of all model realizations; fraction of model realizations with $MAGT < 0^{\circ}C$) are available at <http://dx.doi.org/10.11582/2015.00016>.”
