Received and published: 8 December 2015

Dear reviewers and Babis

The manuscript is currently being revised and your comments are taken into account. Specifically, the energy balance model and values in Table 1 is explained better. Also the catchment issue raised by reviewer #2 is addressed by redoing the calculations based on the results from Linbäck et al. 2015.

The remaining revisions, and replies to comments, will be presented together with the revised version.

C2459

Best regards Andreas Mikkelsen
