Dear Christian Hauck,

Thank you very much for your careful reading and noticing all these technical issues. We performed all the required changes.

Concerning the 2 comments related to “multi-hm” and “hm-scale”, which mean “multiple hectometers” and “a hectometric scale”, we asked 2 native English speakers and they both agreed on the fact that it is correct and understandable. However, to avoid confusion we reformulated these expressions based on their suggestions.

We don't have any further comments since all the other required changes were making sense.

We hope that our paper now satisfies the standards for being published in TC.

Florence Magnin,

On behalf of all the co-authors
