Received and published: 10 November 2016

Dear editor, dear reviewers,

i and my colleagues and co authors acknowledge your consideration and useful comments and suggestions on our paper "Seasonal evolution of a ski slope...". We will shortly reply to your detailed reviews and submit a revised manuscript. Regarding i will defend my PhD thesis the 5 December, we would be very grateful if the submission date was extended to the 20 December 2016.

Yours sincerely, Pierre Spandre on behalf of all co-authors
