Received and published: 10 April 2017

Dear. Dr. Gao,

Manuscript tc-2016-289 entitled "Change in Frozen Soils and its Effect on Regional Hydrology in the Upper Heihe Basin, the Northeast Qinghai-Tibetan Plateau" which you submitted to The Cryosphere Discussions has been reviewed.

The referees found your paper to be interesting and suitable for publication in The Cryosphere, however they had some important concerns that require minor revisions of the manuscript. Their comments are helpful and self-explanatory.

A revised version of your manuscript that takes into account the comments of the ref-

C1

erees will be reconsidered for publication.

Please note that submitting a revision of your manuscript does not guarantee eventual acceptance, and that your revision may be subject to re-review by the referees before a decision is rendered.

Thank you for submitting your manuscript to The Cryosphere Discussions, and I look forward to receiving your revision.

Regards,

Dr. Peter Morse
