Thank you for your comments. A compilation of all reviewer suggestions and author responses is attached here as a supplementary file ('ReviewerResponses\_All.pdf'), which references the page and line numbers from the edited manuscript with Track Changes recorded (attached here as a separate supplementary file, 'Paleodrainage\_edits.pdf').

A version of the edited manuscript without Track Changes formatting is also included here as a supplementary file, in order to view a 'clean' version of the edited draft (Paleodrainage\_edits\_withoutTrackChanges.pdf).
