Received and published: 8 July 2016

Dear Mr. Hauck, Mr. Arenson and Mr. Kinnard,

We would like to thank you very much for the very enthusiastic, constructive and motivating review which helped us to improve the manuscript. We hope that we have adequately addressed and answered all reviewer comments (see supplement) and changed the manuscript accordingly. The revised manuscript is now also available where we implemented the reviewers' comments, suggested references and added some further explanations on aspects that did not seem to be sufficiently clear. We also added a figure to the supplementary material and changed the figures in the manuscript according to the comments.

All the best, Johann Müller, Isabelle Gärtner-Roer and Andreas Vieli
