

Interactive comment on “Distinguishing ice-rich and ice-poor permafrost to map ground temperatures and -ice content in the Swiss Alps” by Robert Kenner et al.

Robert Kenner et al.

kenner@slf.ch

Received and published: 22 March 2019

We sincerely thank both reviewers for their constructive feedback, which helped a lot to improve the paper. It became clear to us that the paper was not convincingly written and we carefully checked the entire manuscript trying to clarify and precise it. We answered all comments of the reviewers in the attached PDF.
