Received and published: 17 July 2018

Dear authors,

Thanks a lot for your general responses to the referee’s comments. Your letter suggests that you are confident in your ability to address their comments in a revised manuscript.

I would like to ask you to submit a point-by-point response to all comments (including the Short Comment) and a revised version (both track-changed and cleaned) of the manuscript. I will send it back to the referees, only if all points have been addressed carefully.

C1

Best regards,

Etienne Berthier
