We thank reviewer 1 for his general comments and very useful suggestions.

You can find attached our detailed responses to the comments (NANNI\_response\_RC1\_tc\_2019\_243.pdf) together with the changes made in the manuscript, with in red what has been removed and in blue what has been added (NANNI\_2020\_diff\_revisions\_tc\_2019\_243.pdf).

We also attach general comments concerning changes that were not made following a particular comment of RC1, but that answer questions that arose when working on the reviews (NANNI\_response\_general\_tc\_2019\_243.pdf).

Best, Ugo Nanni in behalf of the co-authors

C1
