Received and published: 17 April 2020

Dear Pr. Hulbe,

We are grateful to the two reviewers, who have provided helpful and insightful comments to our manuscript. All of their remarks have been taken into account. Please find attached our responses to the reviewers and a description of how we changed the manuscript. The new version of the manuscript now includes clarifications of several aspects in order to make the manuscript accessible to a wide audience and to detail results that needed additional explanations. The new manuscript is included in the supplement along with our responses, and differences with the previous version are

highlighted.

Best regards, Helene Seroussi, on behalf on the ISMIP6 team
