Received and published: 23 July 2019

We are extremely grateful to the anonymous reviewer for going through the manuscript in detail and providing very helpful comments. In the attached supplement we have addressed (in red italics) all the main points that were raised (in bold). All minor points/corrections will be implemented into a revised version of the manuscript if we are invited to submit one. Sebastian Rosier and Hilmar Gudmundsson

Please also note the supplement to this comment:
