Dear Editor:

Thank you for your suggestion on how to format the two passages in Sect. 3.4 of the manuscript:

line 431-432: "In this connection, in the Interactive Discussions of our manuscript (see interactive comment on The Cryosphere Discussions, RC2 (<https://doi.org/10.5194/tc-2020-217-RC2> , 2020) and RC3 (<https://doi.org/10.5194/tc-2020-217-RC3> , 2020) and associated author comments AC2, AC3 and AC4) it was clarified..."

line 440: "In the Interactive Discussions (see interactive comment on The Cryosphere Discussions, RC2, <https://doi.org/10.5194/tc-2020-217-RC2> , 2020), it was suggested.."

I have implemented these changes and am uploading the final set of manuscript files to the submission site.

Kind regards,
