

***Interactive comment on* “Brief communication:
Atmospheric dry deposition of microplastics and
mesoplastics in an Antarctic glacier: The case of
the expanded polystyrene” by
Miguel González-Pleiter et al.**

Anonymous Referee #1

Received and published: 2 December 2020

I have two minor remarks on the text: Line 49: I suggest "Despite its rate of ice loss has increased ...". Lines 51-52: I suggest "the Antarctic cryosphere ... (Dirscherl et al 2020), its cap of ice covering up to ...".

Interactive comment on The Cryosphere Discuss., <https://doi.org/10.5194/tc-2020-261>, 2020.
