I just wanted to mention that in my review, I was actually referring to Casulli and Zanolli, 2012 (Journal of Computational and Applied Mathematics) and not to Casulli and Zanolli, 2010 (SIAM Journal on Scientific Computing) as written in my review. As I use notations and references to the equations of the 2012 paper, it would be confusing to read my comment with the incorrect reference. I am sorry for this mistake, I did not notice that these authors published two distinct papers on this algorithm.
