

Dear Evgeny Podolskiy,

We want to thank you sincerely for the last technical corrections and acceptance of our manuscript.

We did all corrections as suggested in the commented pdf file that you attached.

The term “submarine discharge” was suggested by reviewer 2, but we agree that in many places it can be misleading because it is unclear that this submarine discharge is coming from underneath the glacier. Thus, we changed the term to “subglacial discharge”, whenever “submarine discharge” would be unclear (including the title).

Best regards

Tobias R Vonnahme
