

Ice volume and basal topography estimation using geostatistical methods and GPR measurements: Application to the Tsanfleuron and Scex Rouge Glaciers, Swiss Alps

Author(s): Alexis Neven et al.

MS No.: tc-2021-161

MS type: Research article

Iteration: Final Review

We thank the reviewers and the editor for their feedback on our revisions.

We implemented all the corrections suggested by the reviewers and the editor and performed a last careful read. Some additional minor typos were also corrected.

On behalf of the authors,

Best Regards

Alexis Neven
