

Dear TC editor,

We have now made technical corrections suggested by the reviewer(s). We included the units in colorbars of Figures 1 and 9 and in Table 5, corrected the incorrect year in Figure 11 caption. We also checked the list of references. If there are still problems with the reference format, they may be due to latex. In any case, let us know and if possible advice us to solve the possible problems.

We also included a tex file in the 2 column format with tables and figures placed in the text. This file is named karvonen_etal_2col_R2.tex.

Sincerely,

Juha Karvonen, on behalf of all the authors of the manuscript
