

Answer to the editor's comments on our manuscript  
entitled : "Impact of runoff temporal distribution on  
ice dynamics."

Basile de Fleurian, Richard Davy and Petra M. Langebroek

Thank you for this comment on the preceding version of the manuscript. The paragraph treating of the various potential shortcomings of our study has been rewritten in three different paragraphs as suggested. Hopefully this part is now clearer.

Thank you again for your thorough reading of this manuscript

Basile de Fleurian
