

Dear Dr. Sørensen,

Thanks for checking over the manuscript again, and for all your help. I've made the following changes, as requested:

L. 17: form -> from.

Fixed

L. 44: Harding reference still appears twice?

Fixed

L. 158: space missing before the ~

Try as I might, I could not find a ~ that did not have a space in front of it. This may be a problem with how the manuscript is rendered on either your or my computer, but we'll get this sorted out in the proof stage.

L. 263: space missing before reference

Fixed

L 648 and 649: bias -> biases ?

Fixed

L. 651: "spread of biases of the ICESat-2 biases" -> "spread of the ICESat-2 biases" ?

Fixed.

All the best, and happy New Year.
